Int reference: 100523MR

In 2023, The Guinea Group (TGG) was engaged by Gladstone Regional Council (GRC) to deliver a leadership program for 15 of the GRC leadership team.

The training and coaching program was built around the GRC Leadership Capability Framework.

TGG were engaged to take that framework and develop a training and coaching program that supported the leaders to develop the key skills within that framework and implement them within Council.

The program commenced with a one-day training program, and continued with a three-month coaching program, that commenced in March 2023. And will be completed by June 2023.

As a local business, TGG was grateful to be given the opportunity to support the development of the leaders at GRC, and to deliver such an important program for their leaders.
