

2024 Apprentice Safety Session

Towards Interdependence

What does interdependence mean to me?

It means having the ability to:

- Work well with others
- Simplify the tasks into steps that are easy to follow
- Include others in conversations and activities
- Have confidence in yourself and others (to work safely, and to be independent and interdependent)
- Take on and give feedback
- Ask questions if you don't understand
- Set goals for self and others in the team
- Accept weaknesses and strengths in others and still work well with them
- Look after each other and support each other as required
