How can we grow strategically?

14:00 PM Break

14:15 PM Where to from here?

15:00 PM Workshop Wrap up (AG)

15:30 PM Workshop Finish (AG)

Preface:

- The Integreat Board and leadership team are in the process of reviewing and updating priorities established in previous strategic planning meetings.
- This process will involve reviewing our values, our vision, and our mission.
- The process may include updating these, which currently are not displayed on Integreat's website.
- We will focus on Streamlining our pillars (of which there are currently four, though this could be consolidated)
- Our Current Pillars are:
 - Healthy Communities: Supporting newcomers and locals in skill development, fostering connections, and enhancing community resilience.
 - Regional Participation: Promoting inclusivity through local initiatives, events, and connecting new residents with relevant services.
 - Learning for the Future: Providing educational programs to enhance skills, employment opportunities, and create new avenues for growth
 - Strengthening Networks: Collaborating with interest groups, local organizations, businesses, and industries to achieve community goals
- We will also work on defining our identity and core activities more clearly.
- The major focus of the day will include establishing short-term (1-2 years) and long-term (3-5 years) goals, with the aim of strengthening existing initiatives initially, followed by organisational scaling
- The next stages of the program will include showcasing Integreat Queensland's legacy on the website, as well as defining and working towards leaving a meaningful legacy.

Purpose:

The purpose of this series of workshops is to answer the question:

“What do our values, vision, and mission need to be to help Integreat move forward and to continue to grow strategically (over the next one to five years)?”

Process:
